

Crossword Construction Kit is a must have tool for educators, students, publishers, corporate trainers and puzzle enthusiasts to quickly produce professional looking puzzles.

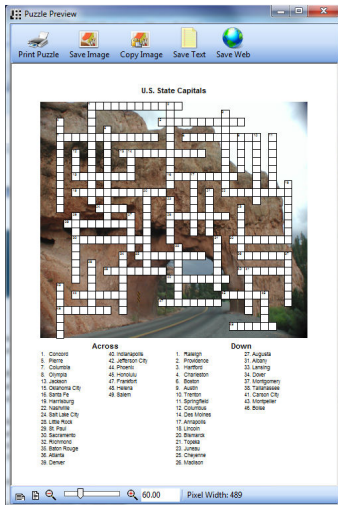

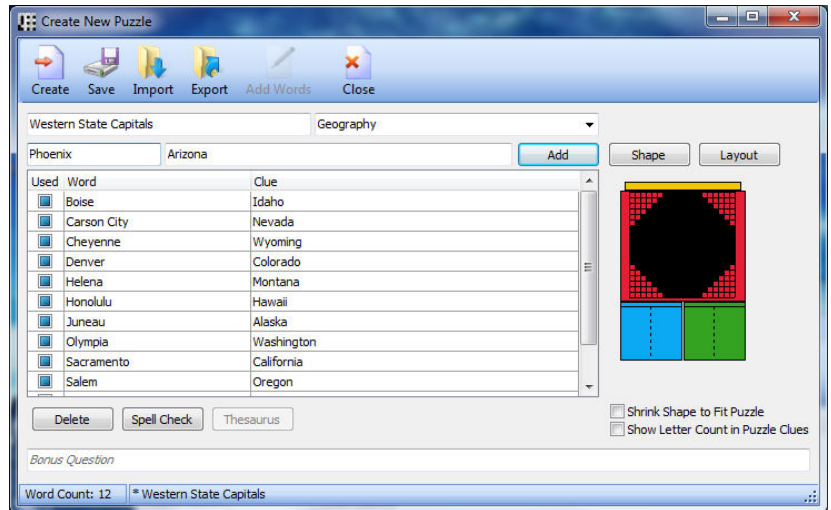

Create puzzles for vocabulary, spelling, chapter reviews, foreign language studies, job training, newsletters and more. Use existing puzzle shapes or design new ones to match your subject material or insert supporting graphics.

Desktop Publishing

Design your own puzzle page layout -- drop, place and size the puzzle, graphics and text components onto the layout. Print, save to clipboard or export as an image to load into a graphics program.

Interactive Puzzles

Create interactive puzzles to upload to web pages. Allow visitors to play and solve puzzles online. Include timers and sound effects to enhance the experience.

Puzzle Features

- Spell check in 8 different languages
- 50,000 word thesaurus for help in generating clues
- Create puzzles in different shapes - over 100 included
- Design your own puzzle shapes – up to 49 x 49
- Organize your puzzles by category
- Optional multiple random puzzle creation attempts with best 4 results displayed.
- Option to manually fit in additional words & clues
- Allows up to 200 words per puzzle, up to 150 characters per clue
- Import/export words and clue lists from/to text files
- Add images to the puzzles for interest or to reinforce a theme
- Click the Play button to solve the puzzle in a playable Java format.

Desktop Publishing

- Design your own puzzle page layout
- Drop, place & size crossword, graphic images and text components
- Select fonts, colors, columns, borders, etc.
- "Make It Fit" option ensures all text fits inside boundaries of Clues, Lists, etc.

Print and Output Options

- Export completed puzzles as a graphic image (bitmap, metafile, JPEG and .png)
- Copy the puzzle to the clipboard to paste into another application
- Export as a ready to use web page
- Print Answer Key, Partial Answer Key, or Selected Letters as hints
- Choose paper size: Letter, Legal, A4, & more

"I love the ease of your program. I am a 5th grade teacher and I use it for my spelling and reading reviews. The kids LOVE IT!"

--Debbie, New Jersey

"Being an English and German teacher, I find your program wonderful - and so do my students!"

--Sylvia, Austria

System Requirements

- Pentium, equivalent or greater CPU
- Runs on Windows XP or later (64 bit and 32 bit versions)
- 20 MB free hard disk space

The Java Runtime Environment (JRE) is required if using the interactive puzzle options. If not already installed, this requires 40 MB of hard disk space
